### **BIOTEC post doctoral fellowship announcement**

Thailand's National Center for Genetic Engineering and Biotechnology (BIOTEC) is seeking 4 positions for post-doctoral researchers in area of Molecular biology, Genetics, Cell biology and Computational Chemistry, Molecular Modeling, Crystal Structure:

- Position 1: Identification of new compounds that have potential use in antimalarial combination therapy
- Position 2: Computer-Aided Drug Design for new effective PfDHFR inhibitors
- Position 3: Mechanisms of resistance to the Brown planthopper (BHP) in rice
- Position 4: Development of oil palm micropropagation by liquid culture to increase the efficiency for oil palm propagation

The position is opened to Thai and international applicants. Detailed announcement is available on the website: <http://www.biotec.or.th/en/index.php/info-center/allnews/news-2015/1571-update-on-the-biotec-post-doctoral-fellowship-announcement-2014-2015>.

In addition, BIOTEC also partners with TWAS in offering TWAS-BIOTEC Postdoctoral Fellowship Programme catering specifically to young scientists from developing countries outside of Thailand to carry out postdoctoral research in BIOTEC laboratories.
